

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ronni S. Jlllions on 12/05/2008.

The application has been amended as follows:

25. (Currently Amended) A method for setting parameters of a unified MAC node, comprising:

observing a protocol used between MAC nodes and formats of packets received from a physical multi-access medium;

recognizing a type of collision anticipation tree expansion (CATE) or collision resolution tree expansion (CRTE) of the protocol used between the MAC nodes by using observed results;

selecting a group processing approach by using the observed results; determining conditions to renew a cycle by using the observed results; and defining the parameters by using the observed results to configure the unified MAC node.
